The magic of musical theater doesn't only happen when the curtain goes up. In this workshop, kids experience everything involved in creating and performing in a show, from casting to final production. In these musicals, just as in a professional show, only one child is cast in the lead role. All other participants join an ensemble, and everyone will have the opportunity to try out for roles the first three weeks of the semester. Regardless of role, every student experiences the teamwork and camaraderie involved in putting on a show through production-based weekly rehearsals, gaining valuable skills in collaboration, problem solving, and communication, as they build self-esteem in a warm and supportive environment. The workshop culminates in a performance of a fully produced musical for family and friends with every child performing and showcasing every student's creative journey.

Musical Theater Teen Production

Wednesdays
5:00 – 6:30pm

Teens and near-teens, ages 11 – 18, ready for a dedicated pre-professional theater experience will thrive and learn in this process-based weekly workshop where they'll experience every step involved in creating and performing in a musical. In this musical, just as in a professional show, only one child is cast in the lead role. All other participants join an ensemble, and everyone will have the opportunity to try out for roles the first two weeks of the semester. Together students collaborate on producing Disney's *Newsies JR.*, practicing teamwork and problem-solving skills while building confidence and exploring their creativity as individuals. The workshop culminates in a fully produced show for family and friends on the weekend of June 11 - 13, with every student's talent and contributions showcased.
