Teen Musical Theater Assistant Director & Choreographer Summer Intensive

Ages 14 – 18

Step onto the creative team! This hands-on summer program is designed for teens who are ready to explore the art of directing and choreographing musical theater.

Under the mentorship of 92NY teaching artists, students will learn how to find their voice as a leader, choreograph dynamic group numbers, and block scenes that tell clear, compelling stories onstage.

Participants will collaborate with our younger Musical Theater campers and take on real creative responsibilities throughout the week. They will also play an essential role in producing our weekly Community Service Showcase, performed every Thursday for our beloved 92NY Seniors — a meaningful opportunity to share their work and give back through the arts.

Students in this program may receive community service credit as needed. Ideal for emerging directors, choreographers, and leaders who want to build confidence, sharpen their skills, and make an impact both artistically and in the community.
